

PRECISION CLEANING

SPACE | AIRCRAFT | MILITARY & DEFENSE

Astro Pak has cleaned hardware and components for almost every cleanliness critical industry and application since 1959. Some of the world's most prestigious institutions including JPL, Lawrence Livermore National Laboratory, MIT, and Cal-Tech have sought guidance and consultation from our subject matter experts. We house the largest and most advanced contract precision cleaning facilities featuring state of the art ISO 9001/AS9100 Certified Class 5 & 6 cleanrooms of varying sizes and capabilities. Unique features include a 21,222 cubic ft Large Component Cleanroom whose 18ft ceilings and 2-ton overhead bridge crane allows us to accommodate large configuration hardware to be processed in a cleanroom environment. Additionally, our 15'x15' enclosed hose tower (70' vertical) enables the processing of stainless steel convoluted hoses up to 60' in length. We also house an extensive library of approved procedures and meet the requirements of hundreds of industry specifications including NASA, the Air Force, Department of Defense, and many private organizations.

CAPABILITIES

- ▶ PRECISION CLEANING
- ▶ PASSIVATION
- ▶ OXYGEN CLEANING
- ▶ PACKAGING & ASSEMBLY
- ▶ HYDROSTATIC & PNEUMATIC TESTING
- ▶ CLEANLINESS VERIFICATION TESTING

COMPONENTS PROCESSED

- ▶ VALVES, FLANGES, GASKETS
- ▶ GAUGES, TRANSDUCERS, SENSORS
- ▶ HOSES, FITTINGS, FASTENERS, FILTERS
- ▶ TUBING, PIPING, MANIFOLDS
- ▶ MISSILE & DEFENSE COMPONENTS
- ▶ 3D PRINTED HARDWARE
- ▶ TANKS & PRESSURE VESSELS
- ▶ TEST & LAUNCH GROUND SUPPORT EQUIPMENT (GSE)
